

618 Part B Personnel

Reporting Year: 2014-2015

The personnel report provides the number of full-time equivalent personnel *employed* or *contracted* to provide special education and related services on or about the child count date. The totals include data from all agencies having responsibility for educating children with disabilities, including personnel employed by private agencies. Personnel employed to serve students with disabilities ages 3 through 21 regardless of funding source (i.e., Part B of IDEA, State, or local) are included in the report.

The number of personnel is reported in full-time equivalency of assignment. That is, a part-time teacher working 4 hours per day (in a 6-hour school day) would be reported as .67 FTE. Decimals may be used. Decimals have been rounded to the hundredth place (i.e., two decimal places). Zeros (0) have been placed in categories where no personnel are employed.

This report has been redacted in accordance with the Idaho Data Council recommendations to protect students in small populations or where it is possible to identify an individual student.
